Cute Pet Park

Infrared Combat Pet Console

INSTRUCTION BOOKLET

ITEM: M-1

Game Introduction

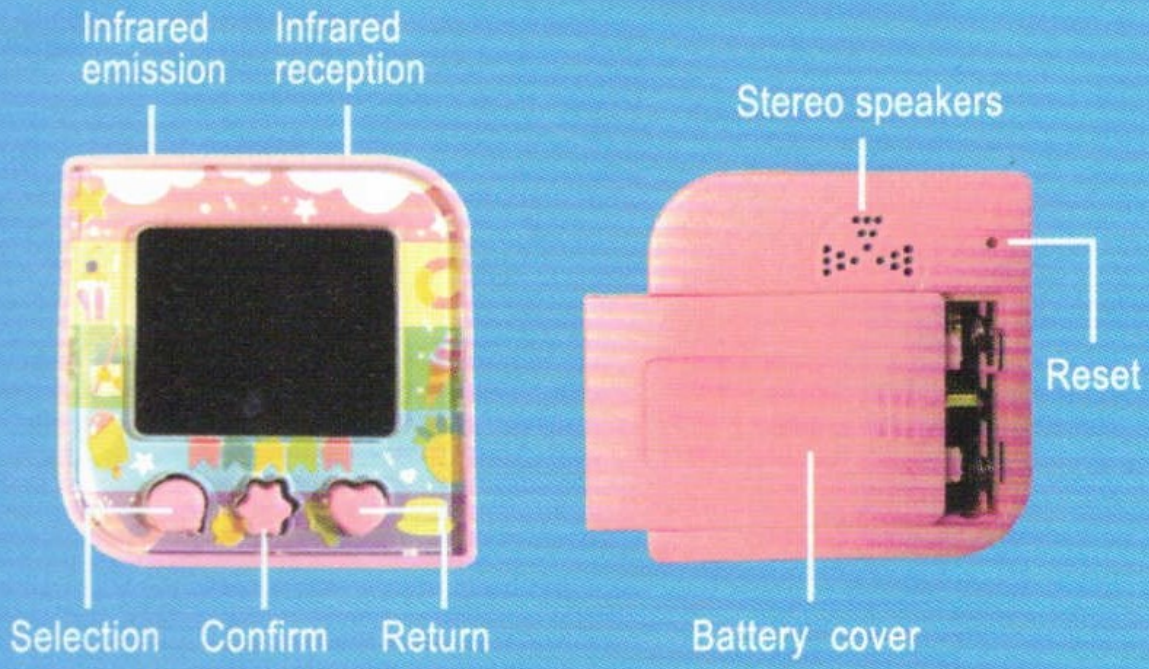
The Cute Pet Paradise pet console is the first in China, with a high-definition color screen , it is a multifunctional gaming console that integrates growth, gaming, and competition. The console is compact and portable, allowing you to take care of your pets anytime and anywhere. You can also engage in PK competitions with your friends, eating, takeing a shower, going to school, and other interesting growth processes with unpredictable storylines. You can buy house and car when you grow up, and get married online when you reach adulthood! You will be the king of the cute pet kingdom after accumulating a certain amount of wealth.
The cool online battle competition function, mysterious surprise mission events, and exciting game content will make you love it. Experience it to the fullest!

Screen size: 1.8-inch TFT LCD color displays
Communication function: ultra strong infrared connection
Battery type: 3 * 7 #(AAA) alkaline battery

Warning:

This game console contain small parts.Please do not let children unser the age of threecome into contact with it alone.
This game console contains electrical components and should not be used in damp environments or in water.

Function key



Reset key

When the game console crashes or the display screen function is abnormal, please use a thin pin or toothpick to poke this hole, and the device will return to normal. The game content will not be lost. Just choose to continue the game on the interface, or remove the battery and reinstall it.

Installation and replacement of batteries

This console uses 3 AAA batteries. Flip the body over, push the battery cover to the left, open the battery cover, follow the positive and negative pole instructions in the cabin, correctly place the 3 batteries, and finally push the battery cover to the right.

If the display is dim, unclear, or the function is abnormal, please replace the battery in a timely manner. When replacing the battery, the game content not be lost. When the selection interface appears, choose to continue the game.

On/Off

This console is not equipped with a power switch and uses the latest power-saving sleep technology. After installing the battery, it will automatically enter the power on state as shown in the picture.

Enter the animation interface for playback, accompanied by music, and then enter the settings interface. During the game, if the player does not touch the button for 2 minutes, the game will automatically enter sleep mode. During this process, the little pet is still growing. Pay attention to timely feeding, otherwise the pet may run away or die. Touching any button will continue the game, and the device will automatically sleep without the need for manual shutdown.

Pet growth status

The cultivation of small pets, calculated by time, is one year old per day, and can grow up to 255 years old. It is divided into four stages of growth: infancy, childhood, adolescence, and adulthood.

Pets sleep from 11:00 pm to 7:00 pm the next day.

During the rest period, one should not engage in other outdoor activities and only consume hunger value, without consuming mood and health value. Rest time can awaken pets.

Troubleshooting

1、How to set the year?

After the startup animation, the console will pop up the year selection interface. Press the right button to subtract the year, and press the left button to add the year. After selecting, press the middle confirmation button to confirm.

2、How to set the time and month?

After confirming the year, you can directly enter the time and month setting interface. The first interface is the hour setting. The default time of this console is 8:00. Players can press the left button to cycle through setting the time, then press the confirm button to enter the minute setting interface, which is also set sequentially by pressing the left button. Then press the confirm button to enter the month selection, press the left button to set, and confirm to enter the date setting. After pressing the left button to set, press confirm to complete the setting. Players must set the time of the console to be consistent with our local normal time, because pets also rest according to the time. If there is a power outage for a long time, player must choose to continue playing and correct the time in a timely manner, otherwise the time is incorrect.

girl

boy

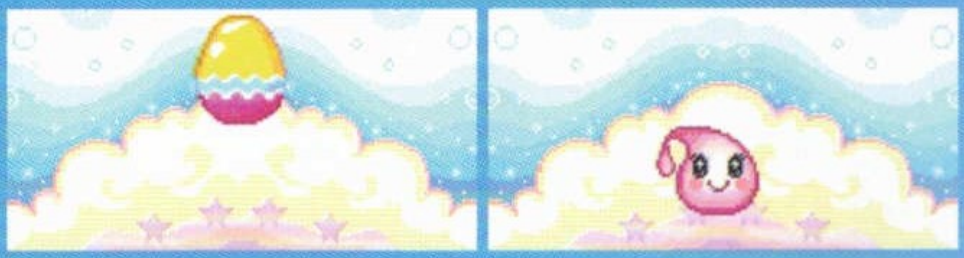
3、How to choose gender?

After confirming the time and date settings, three colored pet eggs will appear on the interface. Players can freely choose one of the eggs as the pet to adopt. The pets hatched from the eggs can be divided into boys and girls.

The probability of boys and girls is random, players need to rely on luck. If the player want to choose the gender of the boy or girl they like. Just reset and restart the console, or power off and restart it. May need to choose several more times, boys and girls have different personalities! Boys and girls can get married when they grow up.

4、. How to hatch pets?

After gender confirmation, it will automatically enter the pet's home and the pet's eggs will jump back and forth. After 3 seconds, the young pet will be born.



5、How to set a name?

After the pet is born, enter the name selection interface and give your little pet an interesting name. Press the left button to selection character, press the confirm button once for each character selected, and you can choose a name of up to 3 characters. After making the selection, press the left button to move the cursor, press the confirm button to confirm the name, and a cute pet is born.

6、How can I choose other activities or games?

After the pet is born, it is at home. Press the left button to enter the function directory for selection, press the confirm button to enter the selection function interface, and press the right button to exit the selection.

7、How do pets go to the yard to play?

When the little pet is staying in the house, press the confirm button to switch to the yard. The little pet can play freely in the yard, jumping and exercising; Pet dogs or kittens brought back from outdoor parks also be kept in the yard; You can see the changes in the weather every day in the yard. (Note: When playing in the yard, the left and right keys have no function and cannot be used to select other items. Press the middle confirm button again to return to the pet's home.).

8、How to check the time?

When the pet is at home, press the confirm button repeatedly to enter the time interface, check the time, and right-click to exit the time interface.

9、What should I do after power outage, battery replacement, or console crash reset?

After replacing the battery or resetting and restarting the console, Don't worry about that the original game content not be lost, and the console will enter the selection interface.

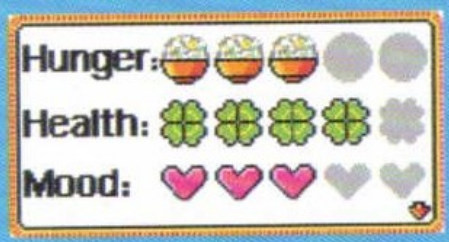
If you want to continue the previous game content, choose the "Continue Game" option. If you choose the "Restart" option, you will see "Are you sure you want to restart?" with two options: "Restart" and "Cancel". If you choose "Restart", the character name will be reset, and all previous game progress and data will be cleared, the game will restart. Please choose carefully! Select "Cancel" to continue with the previous game progress.

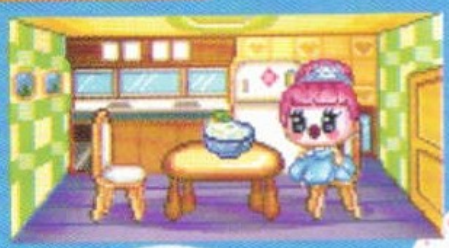
10、What should pets do after leaving with luggage ?

If this situation occurs, that is to say, all previous game content will disappear and need to be restarted. You can press the middle confirmation button to enter the selection interface, and the player only has one choice: you can only restart this option, re-enter the pet egg selection, and start from scratch, all previous game content will disappear.

11、How to feed pets ?

When the console is in its factory defaults, all values have a predetermined portion, which is half of the full value. Players can go to the "Food" option to give their pets food, including Chinese, Western, and staple foods. Supplementing nutrition, otherwise pets will starve to death, be sure to remember.



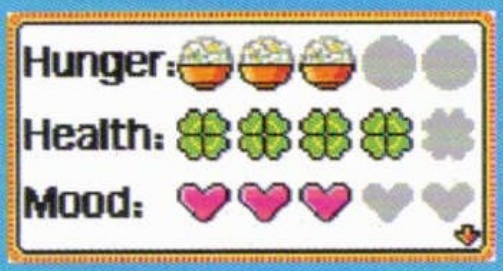


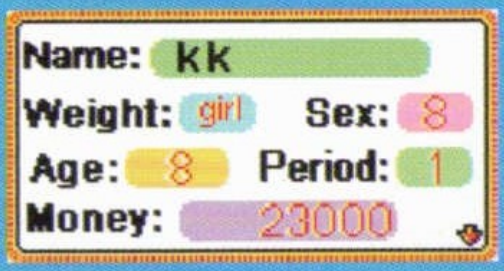
Catalog of pet function

1、Status Table

When the pet is at home, pressing the left button and the screen display the status table text. Press the confirm button to enter the status table, There are options in the status table :

(1) Players can check the three values of pets.





(2) Continue to press the left button to check the pet's identity, property, and growth status.

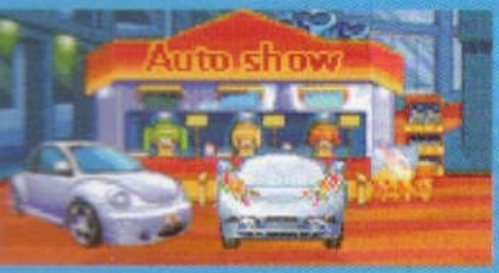
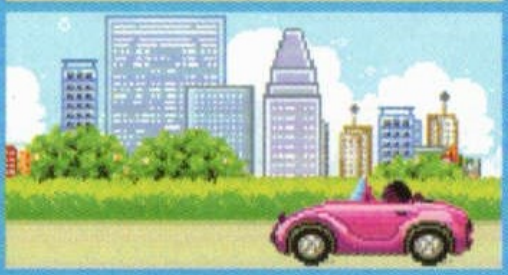
(8) Going to school: Learning can increase knowledge. Remember to have 2 classes per day, each lasting 3 minutes, until you graduate from university. Otherwise, you won't be able to obtain your graduation certificate.

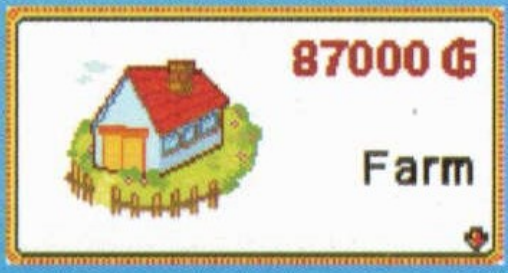
(9) Working: When you grow up, you can work in shops or restaurants to earn coins.

(10) Auto Show: There are many car models to choose from, very expensive ones, work hard to make money! The purchased car will be stored in the treasure box, and after purchase, you can drive out.





11) Estate agent: Here you can buy schools, villas, banks, etc. to crease your asset limit. Estate can bring income and add points your status upgrade.



(12) Blind date: Pets can go on blind dates and get married when they reach adulthood at the age of 30. Male and female pets must first have their own education, fixed assets, and meet the standards before they are eligible for blind dates. There are two ways to go on blind dates:

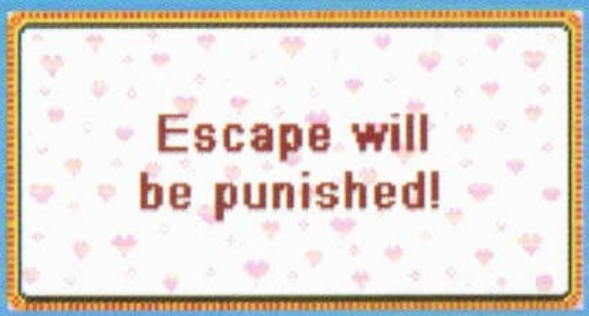
1. It is an online blind date with the opposite sex's pet to find the bride or groom, and the two players enter the second generation of pet development together.

2. It is through the matchmaker's introduction to find the bride and groom, which incurs fees. Moreover, blind dates are not always successful. If you want to find a suitable bride and groom, come a few more times! Breeding the next generation of pets, remember that once married, some cute pets will be raised again, and adult pets will disappear. The previous money and property will be preserved and can continue to be used.

Communication Online

(1) Game Battle: There are 5 classic mini games inside that players can compete online. Before the competition, you can bet on coins to see who plays the best! Gameplay: First, both players need to align the direction of the infrared emission tubes in front of the console in a straight line without deviation, and the distance should not exceed 5 meters. It is best to maintain a distance of 2-3 meters, and then press the confirm button to enter the game interface.

Two people need to select the same game at the same time. Press the confirm button to enter, and 2 online symbols will appear on the game interface. After successfully connecting, a betting selection interface will appear. After selecting the betting amount, press the start button to wait for confirmation from the opposing player. If the opposing player confirms, press the confirm button again, and the game will officially start playing. If the other party feels that the bet is unequal, they have the right to choose to withdraw and start over. Come on! Remember that during the game, the direction of infrared emission from both sides of the player must be opposite, otherwise there is no way to determine the result. If either side maliciously escapes, they will be punished.



(2) Gifts to each other: Firstly, both players should align the direction of infrared emission, not staggered, and the distance should not exceed 5 meters. The giver chooses to send, while the recipient chooses to receive. Both parties can exchange gifts or coins from the treasure chest.

(3) Proposal/Marriage: Firstly, both players must meet the conditions for marriage, and then go online. Only male and female pets can get married, while two same-sex pets cannot get married. Remember. After getting married, a new generation of cute pets will be born, and larger pets will disappear automatically. Consider carefully before getting married!

Wardrobe

The clothes bought by players are automatically saved in the wardrobe, and you can wear different beautiful clothes every day according to your hobbies. If the clothes in the wardrobe are not worn, they can also be sold at a 50% discount.

Treasure Chest

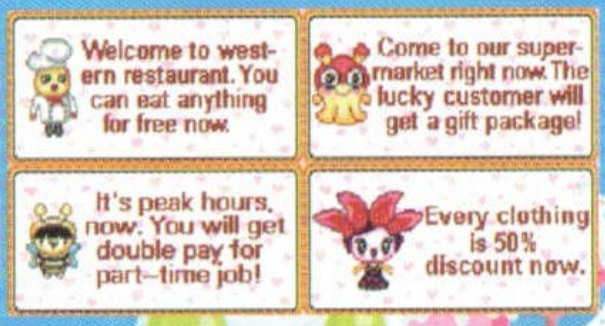
All the products purchased in supermarkets, car shows ,estate agencies, and other places are stored in treasure chests. All existing products, except for houses, can be used by players. These products have a usage limit. If they are used up, they must be repurchased. You can also resell and turn it into gold coins. If a player wants to upgrade their status, they need to have certain asset gold coin requirements to reach different levels. The status will not decrease after gold coin assets consumption. Need to earn money again and reach a higher level.

Bathe

If your pet gets dirty, there will be text prompts indicating that it's time to take a shower. It's important to take your pet to the bathroom in a timely manner as not taking a shower for a long time can affect their mood and health. Taking a shower can increase mood and health values.

Treat

When these symbols appear on the pet's head, it is already sick. The symbol with "teeth" is toothache, the symbol with "small skull" is minor illness, and the symbol with "large skull" is major illness. If left untreated, it will die.

Other


(1) Notepad: Pets can record their own diaries about their birthdays, first time to school, first time to work, and so on.
(2) Jigsaw Puzzle: There are 5 jigsaw puzzle shapes inside, and players can randomly pick up fragments of the puzzle as their pets grow, ultimately forming a complete picture. Each completed puzzle will receive a reward! There are a total of 5 puzzle tasks to complete! Come on!
(3) Event reminder: Discounts in shopping mall, doubling share of the game, increasing the chance of picking up jigsaw puzzles. Hurry up and find a bargain!
